Introduction

A large, irregularly shaped ice floe is the central focus, surrounded by a dense field of smaller ice chunks and snowflakes. The background is a deep, dark blue, suggesting a cold ocean or sky. The lighting is soft, highlighting the textures of the ice.

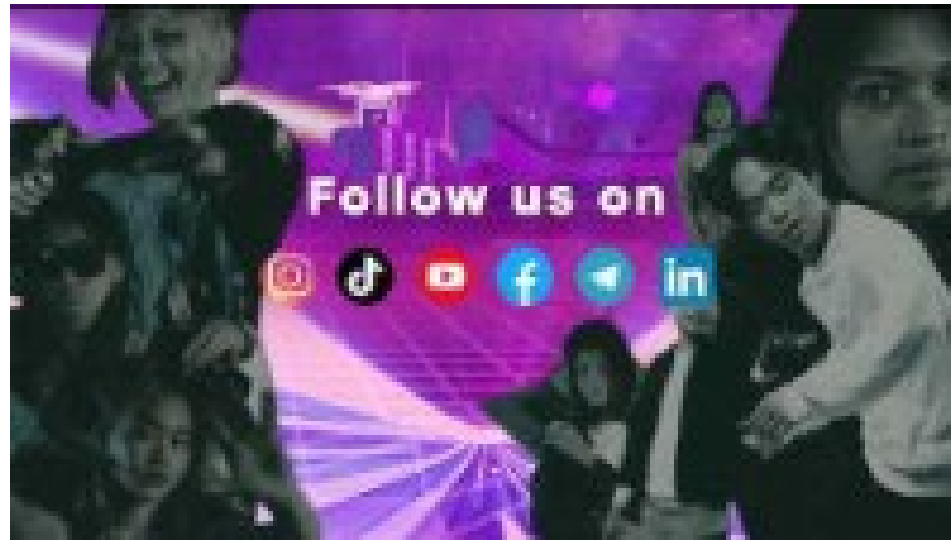

Ice-Breaker!

Let's get to know one another.

Augmenting AI-Generated Work

In Activity 3, we augmented the information generated by AI.

Why must we **augment** what AI generates?

We must:

- lend our personal and authentic voice to the work.
- provide specific details that AI cannot.
- ensure that the information is current and accurate.
- If we can't augment what AI generates, then, we can be replaced by AI!
